

# GETRAG CORPORATE GROUP IN BRIEF

Precision. Passion. Partnership.

The GETRAG Corporate Group combines the strength of all companies of GETRAG Group Transmissions, GETRAG FORD Transmissions and GETRAG Asia Pacific into a single, global unit. All 11 individual companies will act under the umbrella of the GETRAG Corporate Group and the brand name GETRAG.

## Core Competences

GETRAG Corporate Group is one of the largest system suppliers for transmission and drivetrain systems worldwide. GETRAG covers the entire process chain from the idea via concept, prototypes, vehicle integration and testing all the way up to mass production including all engineering services. The group has a broad product portfolio ranging from tried and tested manual transmissions, automated manual transmissions, dual clutch transmissions to hybrid and Range Extender systems. In the area of eDRIVE it also offers various possibilities for electrification of drivetrains.

## Global Presence

GETRAG Corporate Group is represented in all places in Europe, Asia and North America that are relevant to the automotive industry. The Group is based in Germany and has 21 production and development sites worldwide.
